More about the AgriCloud App:

- **How to register for the USSD service:**

- Dial *134*8383#
- Press the call button
- Wait for reply
- Follow instructions

- **How to register for smart phone App:**

- Go to Google Play Store
- Search for AgriCloud
- Download the AgriCloud App
- Follow the instructions

- **Your own stats (crowd sourcing):**

- Become a AgriCloud advocate and earn credits
- Help us to improve your information/advisories by reporting weather observations on your farm

- **Benefits of reporting observations:**

- You will receive your own climate and weather stats
- More weather observations mean better stats
- Better stats mean better farm management
- Better farm management means higher yields and lower input costs

- **Benefits of the App:**

- Get forecast maize planting dates
- Get forecast spraying conditions
- More benefits to be developed

- **Future developments and functionalities:**

- Help us to address your needs
- We develop for you so let us know what you need
